PROFESSIONAL EXPERIENCE

Senior Salesforce Service Administrator (Consultant) | Talution Group | Remote | May 2026 - Present

- Own Salesforce service administration for a 5,000+ user client org, serving as the go-to resource for configuration, support, and platform health.
- Lead engagement across business groups to build relationships, open clear communication channels, and establish repeatable processes.
- Lead Salesforce release organization and stakeholder engagement, coordinating release planning, communication, and deployment readiness.

Salesforce Administrator | Newsela | Columbus, OH | Sep 2022 - Nov 2025

Platform & Release Management

- Administered a 500-user org with 99% uptime and 24-hour user onboarding and offboarding.
- Managed Copado deployment pipelines and partnered with developers, PMs, and analysts to ship sprint releases with near-zero rollbacks.
- Reduced audit and compliance risk with a Closed Won validation process, ensuring 100% alignment between POs, Order Forms, and Salesforce records.

Sales & Revenue Automation

- Designed automation workflows that cut manual effort by 30% across sales and support teams.

- Automated Lead-to-Opportunity conversion through a Salesloft integration, enabling direct meeting bookings, automated SDR cadences, and a 40% cut in manual entry.
- Built Slack automations for MQL assignment, opportunity stage updates, approvals, and scheduled report delivery, speeding SDR response times and giving leaders real-time visibility into key metrics.
- Enhanced Salesforce CPQ with approval workflows and product rules, improving quote accuracy and aligning the sales process with business initiatives.

Customer Support & Service

- Migrated Customer Support from Live Agent Chat to Messaging, improving compliance and lifting customer satisfaction ratings by 25%.
- Consolidated duplicate queues and optimized escalation rules, cutting critical case resolution time by 25%.
- Built a custom object with self-service automation that flags and blocks junk and spam cases, giving frontline agents more independent case management.
- Synced Salesforce and Jira in real time with Celigo, speeding case escalations to the product team and improving cross-functional visibility.

Associate Salesforce Program Analyst | Interos | Portland, OR | Sep 2021 - Sep 2022

- Sole Salesforce administrator for 200+ users; built automation that improved provisioning speed by 50%.
- Integrated Okta Single Sign-On (SSO) with Salesforce, strengthening access controls and authentication.
- Implemented Advanced Currency Management and Enterprise Territory Management, improving reporting accuracy across global sales operations.
- Enabled Einstein Activity Capture to auto-log email and calendar activity, lifting data accuracy by 95%.
- Built intake screen flows for stakeholders, reducing intake errors by 30% and improving request tracking.
- Configured CPQ bundles and product rules and served as primary data QC partner across Opportunity and CPQ records, reducing revenue variance and improving forecast reliability.
- Reduced technical debt by consolidating flows and retiring redundant automation, and managed Copado deployments from sandbox to production.

System Specialist I | Salesforce | Hillsboro, OR | Apr 2020 - Sep 2021

- Led Level 1 support transitions for M&A activity, ensuring a smooth handoff to internal IT teams.
- Managed Salesloft and DiscoverOrg support for a global user base, reducing escalations.
- Coached junior specialists and built an escalation path that improved case resolution times.

Techforce Analyst | Salesforce | Hillsboro, OR | Jan 2018 - Apr 2020

- Supported 60,000+ internal users across permissions, workflows, validation rules, and data cleansing.
- Built automated intake flows and streamlined workload processes, reducing turnaround time by 20%.
- Created dashboards and reports on productivity trends to support executive decision-making.

Associate IT Support Analyst | The Fountain Group | Hillsboro, OR | Mar 2014 - Jun 2015

- Contracted to Salesforce; resolved high-volume support requests with a 95% first-touch resolution rate.
- Managed user provisioning, roles, profiles, and security groups to maintain data integrity.

PRO BONO SALESFORCE CONSULTING

Salesforce Consultant | Lindsey Vonn Foundation | Remote | Sep 2019 - Jun 2022

- Led a consulting engagement to automate scholarship application workflows, reducing manual data entry by 95%, and integrated the donation platform for real-time fundraising visibility.
- Built a self-service status form and a receipt approval form that cut inbound student email and administrative workload by 90% each.

Salesforce Consultant | FH Foundation | Remote | Jun 2020 - Jun 2022

- Improved CRM data reliability by 90% through automation and duplicate management.

Salesforce Consultant | Illinois Public Health Institute | Remote | Aug 2021 - Sep 2021

- Designed Screen Flows and satisfaction surveys that streamlined intake and guided service improvements.

Salesforce Consultant | Keck ACCN | Remote | Feb 2019 - Jun 2020

- Led an Eventbrite integration giving stakeholders real-time visibility into registrations and attendance.
